Poultry Blood Testing: If you are not an NPIP member who blood tests yearly for Pullorum, you will be required to show current paperwork for existing birds on your property. Please have this completed **BEFORE** you bring new market birds onto your property (particularly turkeys as a veterinarian would need to be utilized to do a blood draw on them **IF** you do not have appropriate paperwork for existing flock). **QUESTIONS?** Please contact Maya Jordan for Pullorum Testing. **Maya Jordan @ 330-703-0255 or mayajordan12@gmail.com**
